

**Workshop on Advanced Topics in Applied Informatics in Forestry**  
**Program: March 24 (Mon)**

---

**Theoretical session:**

---

10:00 - 10:50 Introduction to digital image

11:00 - 11:50 Review of algorithms for 3D reconstruction and structure from motion

12:00 - 12:30 Demonstration on sample data

---

12:30 - 13:30 lunch

---

**Practical session:**

---

13:30 - 15:00 picture taking outside

15:00 - 17:00 Image processing and data extraction

16:30 - Example of data fitting with taper function in R

---

Time schedule in afternoon session may be adjusted to the participants needs.
